A society for everyone interested in nature and its conservation

UNDERSTANDING ALIEN SPECIES

Monday 20th May 2024 2024 – 7.30pm

In the Recital Room at South Hill Park

At our next illustrated talk, Professor HELEN ROY MBE, from the UK Centre for Ecology & Hydrology, will be recounting how a collaborative network of over forty countries has mobilised public interest in monitoring alien

species, particularly those which are invasive.

Citizen Science is proving to be key in providing ongoing information to prevent alien species becoming established, and to reduce their spread and impact.

BFNHS Members: £1

VISITORS WELCOME: £3

Cash at the door - no need to book in advance

South Hill Park is on Ringmead, Bracknell RG12 7PA
